Film Permitting Office,

We are filming pick-ups for a Harley Davidson commercial, and we will be implementing drone photography into our production.

Our plan is for the drone to track behind the two motorcyclists, riding above and along our ITC stretch of road on Latigo Canyon Road (roughly 2 miles), at a distance of 40-150ft, with an elevation of 20-80ft above the road. The drone operator will be operating from a vehicle, following the motorcyclists, in order to maintain line of site. Additionally, spotters on radio will be placed intermittently along the road, to keep continual eyes on the drone.

If you have any questions, or if you need any more information, please don't hesitate to call.

Thank you,

Elliot Feld
